

SAFETY DATA SHEET

NAD Nutrient Supplement

1. Identification of the substance/preparation and company/undertaking

Identification of the substance or preparation

Product name : NAD Nutrient Supplement
Code : PL.510

Use of the substance/preparation : NAD Nutrient Supplement is an enrichment supplement for *Haemophilus spp.* and *Neisseria gonorrhoeae*.

Company/undertaking identification

Supplier/Manufacturer : Pro-Lab Diagnostics
 20 Mural Street, Unit 4
 Richmond Hill, ON
 Canada L4B 1K3
 Tel: +1-905-731-0300
 Fax: +1-905-731-0206
 www.pro-lab.com

Emergency telephone number : +44 (0)151 353 1613 -Monday to Friday 9:00 am to 5:00 pm.
 +44 (0)7714 429 646 -Outside the above hours.

2. Composition/information on ingredients

Substance/preparation : Preparation

Ingredient name	CAS number	%	EC number	Classification
Phosphoric acid, sodium salt	7558-79-4	30 - 60	231-448-7	Xi; R36/37/38
See section 16 for the full text of the R-phrases declared above				

Occupational exposure limits, if available, are listed in section 8.

3. Hazards identification

The preparation is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : Xi; R36/37/38

Human health hazards : Irritating to eyes, respiratory system and skin.

See section 11 for more detailed information on health effects and symptoms.

4. First-aid measures

First-aid measures

Eye contact : Check for and remove any contact lenses. In case of contact with eyes, rinse immediately with plenty of water. Obtain medical attention if symptoms occur.

Skin contact : Wash with soap and water. Obtain medical attention if symptoms occur.

Inhalation : If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms appear.

Ingestion : Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

See section 11 for more detailed information on health effects and symptoms.

5. Fire-fighting measures
Extinguishing media

- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
- Not suitable** : None known.
- Special exposure hazards** : No specific hazard.
- Hazardous thermal decomposition products** : These products are phosphates. Some metallic oxides.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

- Personal precautions** : Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment.
- Environmental precautions** : Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers.
- Methods for cleaning up** : If emergency personnel are unavailable, vacuum or carefully scoop up spilt material and place in an appropriate container for disposal by incineration. Avoid creating dusty conditions and prevent wind dispersal.

7. Handling and storage

- Handling** : Avoid contact with eyes, skin and clothing. Keep container closed. Use only with adequate ventilation. Avoid breathing dust. Wash thoroughly after handling.
- Storage** : Keep container closed. Keep container in a cool, ventilated area. Storage temperature: 2-8°C (36-46°F).
- Packaging materials**
- Recommended** : Use original container.

8. Exposure controls/personal protection

Ingredient name	Occupational exposure limits
Phosphoric acid, sodium salt	EU OEL (Europe). TWA: 10 mg/m ³ 8 hour(s). Form: Particulate. TWA: 3 mg/m ³ 8 hour(s). Form: Respirable

- Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

Exposure controls

- Occupational exposure controls** : Use only with adequate ventilation. If user operations generate dust, fumes, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
- Eye protection** : Safety glasses.
- Skin protection** : Lab coat.
- Respiratory protection** : A respirator is not needed under normal and intended conditions of product use.
- Hand protection** : Natural rubber (latex).

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling compounds and before eating, smoking and using the lavatory and at the end of the day. During formulation, follow good industrial hygiene practice.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9. Physical and chemical properties
General information
Appearance

- Physical state** : Solid.
- Colour** : White.

Important health, safety and environmental information

- pH** : Neutral.
- Melting point** : 1000°C (1832°F) based on data for: Phosphoric acid, sodium salt.
- Vapour pressure** : The highest known value is <0.01 kPa (<0.1 mm Hg) (at 20°C) (Phosphoric acid, sodium salt).
- Relative density** : Weighted average: 1.64 (Water = 1)
- Solubility** : Partially soluble in cold water, hot water.

10. Stability and reactivity

- Stability** : The product is stable.
- Materials to avoid** : Reactive with oxidizing materials and acids.

11. Toxicological information
Potential acute health effects

- Inhalation** : Irritating to respiratory system.
- Ingestion** : No known significant effects or critical hazards.
- Skin contact** : Irritating to skin.
- Eye contact** : Irritating to eyes.

Acute toxicity

Product/ingredient name	Test	Result	Route	Species
Phosphoric acid, sodium salt	LD50	>2000 mg/kg	Oral	Rat
	LD50	>5000 mg/kg	Dermal	Rabbit

Potential chronic health effects

- Carcinogenicity** : No known significant effects or critical hazards.
- Mutagenicity** : No known significant effects or critical hazards.
- Reproductive toxicity** : No known significant effects or critical hazards.

Over-exposure signs/symptoms

- Inhalation** : No known significant effects or critical hazards.
- Ingestion** : No known significant effects or critical hazards.
- Skin** : No known significant effects or critical hazards.

12. Ecological information

- Mobility** : Not available.

13. Disposal considerations

- Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements.
- Hazardous waste** : The classification of the product may meet the criteria for a hazardous waste.

14. Transport information
Regulatory information

UN/ IMDG/IATA / ADNR/ADR : Not regulated.

15. Regulatory information
EU regulations

Hazard symbol/symbols : 

Irritant

- Risk phrases** : R36/37/38- Irritating to eyes, respiratory system and skin.
- Safety phrases** : S36/37/39- Wear suitable protective clothing, gloves and eye/face protection.
- Contains** : Phosphoric acid, sodium salt 231-448-7
- Product use** : Classification and labelling have been performed according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and the intended use.
- Industrial applications.

Other EU regulations

EU statistical classification (Tariff Code) : 32089091

16. Other information

- Full text of R-phrases referred to in sections 2 and 3 - United Kingdom (UK)** : R36/37/38- Irritating to eyes, respiratory system and skin.
- Full text of classifications referred to in sections 2 and 3 - United Kingdom (UK)** : Xi - Irritant

History

- Date of issue** : 06/30/2006
- Version** : 1

Notice to reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
